Summer assignment: DUE VIA EMAIL ON JULY 30 AND AUGUST 20

Please complete the following DBQ and **choose 1 essay** to write. The DBQ should be no more than three typed pages, double spaced, and the essay should be no more than two typed pages, double spaced. The two essays will be averaged to equal one test grade.

You also need to **read chapters 2-6** in the text and type definitions and statements of significance for each term listed on the attached sheets. Please do not copy from the text but use your own words to explain the term and its connection to the larger historical picture. This won't be graded, but you will be assessed on your knowledge of the terms and the chapter readings through a quiz.

Essay 1: Before 1763, economic issues, rather than religious positions, determined the development of American colonies. Explore the validity of this statement by discussing three of the following colonies: Virginia, Maryland, Pennsylvania, Massachusetts Bay, Carolinas. Be sure to demonstrate how economic issues or religious positions affected the colonies' development.

Essay 2: Did the colonies have more similarities or more differences with the English **political** system? Name three colonies and identify 2 areas of similarities or differences. An area is more than one piece of evidence – it is a general theme that should have several pieces of supporting evidence.

For both essays, please pick a side to serve as your thesis. **Please use information from the text, although you don't need to cite the text.** Please use your own words.
