

# Public Schools of the Tarrytowns

**RIGOR, RESPONSIBILITY AND RESPECT – PERSONALIZED LEARNING BY DESIGN**

## Board Goals 2017-18

### Fiscal

To develop a fiscally responsible budget, in compliance with the mandated tax levy cap, which meets the resource needs required to ensure that our entering kindergarten students enjoy an academic and co-curricular experience which is comparable to that of our graduating seniors.

### Communications

To develop and implement a communications plan which ensures that both internal and external District communications are proactive, responsive, clear, and inclusive. Communications will support enhanced student achievement and community confidence through improved client service.

### Health and Wellness

To develop a plan for embedding developmentally appropriate social and emotional wellness programming and supports throughout our schools in an effort to raise awareness, reduce stigma, and enhance student and staff wellness, school climate, and achievement.

### Curriculum and Instruction

To foster and enhance excellence in teaching and learning for all students through an ongoing dialogue with administrators and teachers, data analysis, program review, professional development and policy development.

### Safety and Security

To support programs and structures which promote enhanced student achievement and community confidence through the ongoing maintenance of a safe, caring, and respectful school and District culture.

### Facilities

To analyze, in conjunction with the Facilities Committee, maintenance, energy efficiency, space requirements, and the technology infrastructure needs of the District and to develop an action plan to address the identified needs.

### Leadership

To support the leadership development and capacity building for all members of the Public School of the Tarrytowns.
