

Hello Parents,

The 7th grade team wishes everyone the best during this unique time. To help facilitate the learning process while schools are closed we have created a rotating schedule for the students.

Google Classroom will be the vehicle used to deliver and facilitate materials for the students. The following represent some of the advantages Google Classroom provides:

Effective communication - Student to teacher and teacher to student.

Easily accessible student schedule

Classwork can be quickly and efficiently delivered.

Classwork will be appropriate in time and in essence. Each subject is scheduled for approximately 45 minutes of schoolwork. *Actual time may vary depending on the assignment.

STUDENT RESPONSIBILITY

It is important to note that students are responsible for checking and accessing Google Classroom on a daily basis. Additionally, students are responsible for completing assigned work.

Building good habits has been a theme for 7th grade all year. Logging into Google Classroom and taking care of all assigned work is the expectation.

GRADING

The facilitating of work and utilizing Google Classroom during this time period is an adjustment for everyone involved. As such, guidance on grading is constantly changing. Once the Team Leaders are informed by administration that information will be distributed.

LESSONS/MATERIALS

Each subject will have various materials and the delivery of those materials may be different. EXAMPLE: Delivering math instruction may not be the same as Social Studies.

ROTATION SCHEDULE

1st Day- ELA and Science

2nd Day- Math and SS

3rd Day ELA and Science

4th Day- Math and SS

FRIDAY, MARCH 20th is the 1st DAY

Keep rotating using the same schedule until we come back to school. PE, HEALTH, FOREIGN LANGUAGE, ART will have work posted on their individual Google Classrooms. All codes for Remote Learning Google Classrooms are on the TEAM YETI Google Classroom.

FINAL NOTES

The team leaders will update information as it becomes available via Email. We appreciate your continued support and patience during this time.

Thank you,

7th Grade Yeti team.
