

Public Schools of the Tarrytowns

ADMINISTRATIVE OFFICES 200 North Broadway Sleepy Hollow, New York 10591

ANTHONY R.W. DEMAN
Director of School Facilities
914-332-6256

August 2021

This letter is addressed to the parent, teacher, and employee organizations in the Union Free School District of the Tarrytowns, as required by the Federal Asbestos Hazard Emergency Response Act (AHERA). This act requires all schools to inform its employees and building occupants about certain asbestos related activities and records.

Our schools were inspected for asbestos, as required by federal law in 1988. This inspection resulted in the development of an Asbestos Management Plan which was implemented in 1989. The plan calls for reinspection every three years. Our most recent reinspection was performed in May 2019 and the follow on 6-month visuals have also been scheduled. The results of these inspections as well as the Asbestos Management Plans for each of our schools are available for your inspection in the administrative offices of each school. The master plan for all schools is available in the office of the Director of School Facilities, Operations and Maintenance.

In general, in the school district, we have vinyl asbestos floor tiles in most buildings. In addition, we have asbestos containing thermal systems insulation on pipes, fittings and equipment on several of our heating systems. These materials are mainly in good condition and may remain in place in compliance with federal and state guidelines. Over the years we have abated several areas. All of the asbestos which remains in our schools is surveyed regularly so that it may be maintained in good condition.

Sincerely,

Anthony R.W. DeMan
Director of School Facilities
